

Robert Anitei

Freelance UI/UX Designer

Rome, Italy

I create clean, functional interfaces for mobile and web. I'm passionate about good design and intuitive user experience. In my design practice, my goal is always to bring together the needs of a business with those of its customers and users.

Experience

UI/UX Designer

Freelance

Remote

2014 - Present

Working on mobile and web applications for different clients, including Kare Partners, PhD Labs, ConnectGo, TeleLingo and SniperLab.

UI/UX Designer

Dennemeyer

Brasov, Romania

Nov 2017 - Aug 2018

Responsible for the overall and consistent experience of Dennemeyer's software, client portals, websites and micro-sites.

UI/UX Designer

Mondly Languages / ATi Studios

Brasov, Romania

Feb 2014 - Jun 2017

As part of a small team in an agile workplace, I was responsible for creating the language learning app, Mondly from the ground up.

Awards

Platinum / Top Level Designer

99designs

2017

Top Level (previously Platinum designers): "These designers are the pinnacle of our community - and they've worked hard to get here! Their designs are of the highest quality, clients adore them and they're dedicated to staying at the top of their game."

Skills

Application Interfaces

Wireframing

Prototyping

Education

Transilvania University of Brasov

Electrical Engineering and Computer Science

2011 - 2015

Fundamental knowledge of programming languages, development of software and applications for control of industrial processes.

No final certificate.

Dimitrie Ghika Technical College

Baccalaureate in Mathematics and Computer Science

2007 - 2011

Opportunity to combine an appreciation of mathematical reasoning with an understanding of computing.

Projects

Mondly Languages

ATi Studios

A popular free language-learning app with over 30 million downloads. Recognized by the Apple editorial team in Europe (UK, France, Germany, etc) and selected 'Best new app' in January 2016.
